Reur 12/30: expect more footdragging from Bennett, perhaps even a rigged payment of the $10,000. If on the inadequate and incomplete stuff in Berkeley's mindlessness is is enought ~~it~~ to warn Bennett. If you have not heard in a reasonable time please do keep after him with dated records of it.

I have not bought or read the Syble Leaking. My only interest would be archival, for an addition to an ever increasing gallery of rogues in ripoffs. However, few Bringuier to resent being called by another name would be for stinkweed objecting to being called a rose.

Have a good year, and ~~thnnnk~~ thanks,
